

# DEVELOP

Milledgeville-Baldwin County

## Aerospace

Due to the large concentration of aerospace related industries in the area, Middle Georgia has been dubbed Georgia's "Aerospace Corridor". Middle Georgia is home to more than 100 aerospace companies and contractors. The Middle Georgia area is also home to Robins Air Force Base, the largest industrial complex in the state with over 21,000 maintenance and logistics workers; Boeing's Team Macon C-17 assembly facility; Triumph Aerospace's composite facility and assembly facility; and numerous associated service facilities. There are over 30,000 aerospace workers in the area.

Milledgeville, Georgia offers workforce advantages for aerospace companies with wage rates below national averages, a favorable labor environment, trained workers and programs for ensuring expedited start-up operations. Robins Air Force Base, Triumph Aerostructures, Bombardier, Boeing, Northrop Grumman, and Timco are a few of the aerospace operations throughout the Middle Georgia region.

### HIGHLIGHTS

- Avionics and electronics design and repair facilities
